Satrio Adhi Purbo

Front-End Developer

Yogyakarta • 089648595948 • satrioadhi04@gmail.com • https://www.linkedin.com/in/satrio-adhi-purbo/

I am a front-end developer with more than two years of experience working on developing e-commerce websites (Klik Indomaret). I have the ability and experience in designing, developing, and testing sites using HTML, CSS, Javascript, and the React JS framework. I am ready to bring and improve my experience, hard skills, and soft skills to produce fast and responsive websites with the latest technology for companies.

EXPERIENCE

Indomaret Group (Klik Indomaret)   September 2021 – Present

Front-End Developer Supervisor

Develop, maintain, and improve Klik Indomaret systems, including retail, food, virtual, ticket, travel, and flash sale using React JS, HTML, CSS/SCSS, and Javascript. Produce a good website in terms of user experience and interface.

- Analyze the system by coordinating and discussing with UI/UX and back-end to produce a clear and focused system design.
- Slicing design from Figma and Adobe XD to program code HTML, CSS, and Javascript by applying pixel-perfect principles and Design Language System (DLS) produces a responsive and technically feasible UI/UX design system.
- Integrating the back-end into the website display created using the Ajax Jquery library produces a website display with data received from the back-end.
- Applying Search Engine Optimization (SEO) and Google Tag Manager (GTM) to study visitor behavior results in improved user experience.
- We are improving the system and making that with few bugs.
- We are deploying the system using Git.

Indomaret Group (Klik Indomaret)   January 2021 – September 2021

Front-End Developer Internship

Carry out learning, development, maintenance, and improvement of the Klik Indomaret system.

- Study the Klik Indomaret system by reading the program flow and documentation to produce a program according to the company's standard format.
- I am analyzing, developing, and improving notification features for Klik Indomaret members using HTML, CSS, and Javascript.
